STAT

Dear Mr. Hoenigmann:

I have read with interest your letter of March 14th in which you suggest that philatelic agencies could be used to good advantage as a medium for obtaining vital information from abroad.

Your motive and thoughtfulness in bringing the subject to the attention of this agency, as well as your offer to be of assistance, is much appreciated.

Should the need to exploit this channel of information become apparent we shall be pleased to consider further your offer of assistance. We are enclosing the two letters which you submitted.

Very truly yours,
